ABOUT US

Bangladesh 2.0 Initiative is an affiliate organisation of **Obhijatra Foundation**, a UK based charity organisation (**Charity number: 1211413**) aimed at conducting research and policy advocacy in key strategic areas including crime and justice, social policy, education, security and sustainable development, particularly in relevance to Bangladesh. This platform strives in mobilizing scholars, activists, civil society members and concerned citizens to contribute to the reformation and rebuilding of a better community. The organizational activities are focused in creating knowledge, community engagement and dissemination of evidence based policies.

OBJECTIVES

Conduct high-quality research in key strategic areas such as crime and justice, social policy, education, security, and sustainable development related to Bangladesh

Facilitate knowledge creation and its dissemination through research publications, policy briefs, and public forums focused on future development

Engage local and international communities in dialogue and collaboration for the promotion of sustainable, inclusive, and equitable development

Provide a platform for capacity building and supporting initiatives that empower stakeholders to drive transformative change

Promote public discourse and informed decision-making on issues affecting Bangladesh's security, development, and social welfare
